Our Story

At Moon Sauna, our mission was to create a sanctuary that seamlessly blends with nature and elevates your well-being. Our saunas boast a minimalist design inspired by the vast expanse of space, the enchanting Northern Lights, and the mystique of a "Blue Moon."

We're not just sauna builders; we're a team of builders and engineers with over 25 years of experience dedicated to producing high-quality, sustainable structures.

Exterior

The Moon Sauna's exterior exudes sophistication with its clean and modern lines. Its design, inspired by the vastness of space and the Northern Lights, reflects a sense of cosmic elegance. The dark grey wooden facade adds a touch of timeless beauty, creating a striking contrast against the natural surroundings.

Hidden Gutters:

We believe in the power of aesthetics combined with practicality. The Moon Sauna features hidden gutters that not only prevent rainwater from disrupting your experience but also maintain the sauna's clean and uncluttered appearance.

Expansive Window:

A highlight of the Moon Sauna's exterior is the large window that invites the outside in. As you relax inside, you can observe the dance of stars and the moon, bringing a celestial touch to your sauna experience. This window connects you with nature and adds a touch of wonder to your relaxation.

Multi-Functional Terrace:

The Moon Sauna's terrace is not just an ordinary space. Crafted with precision, it's designed to be the perfect size, serving a dual purpose as both a terrace and a bench for lounging. This cleverly designed feature allows you to step outside and enjoy the fresh air while maintaining your comfort and convenience.

Signature Steel Logo:

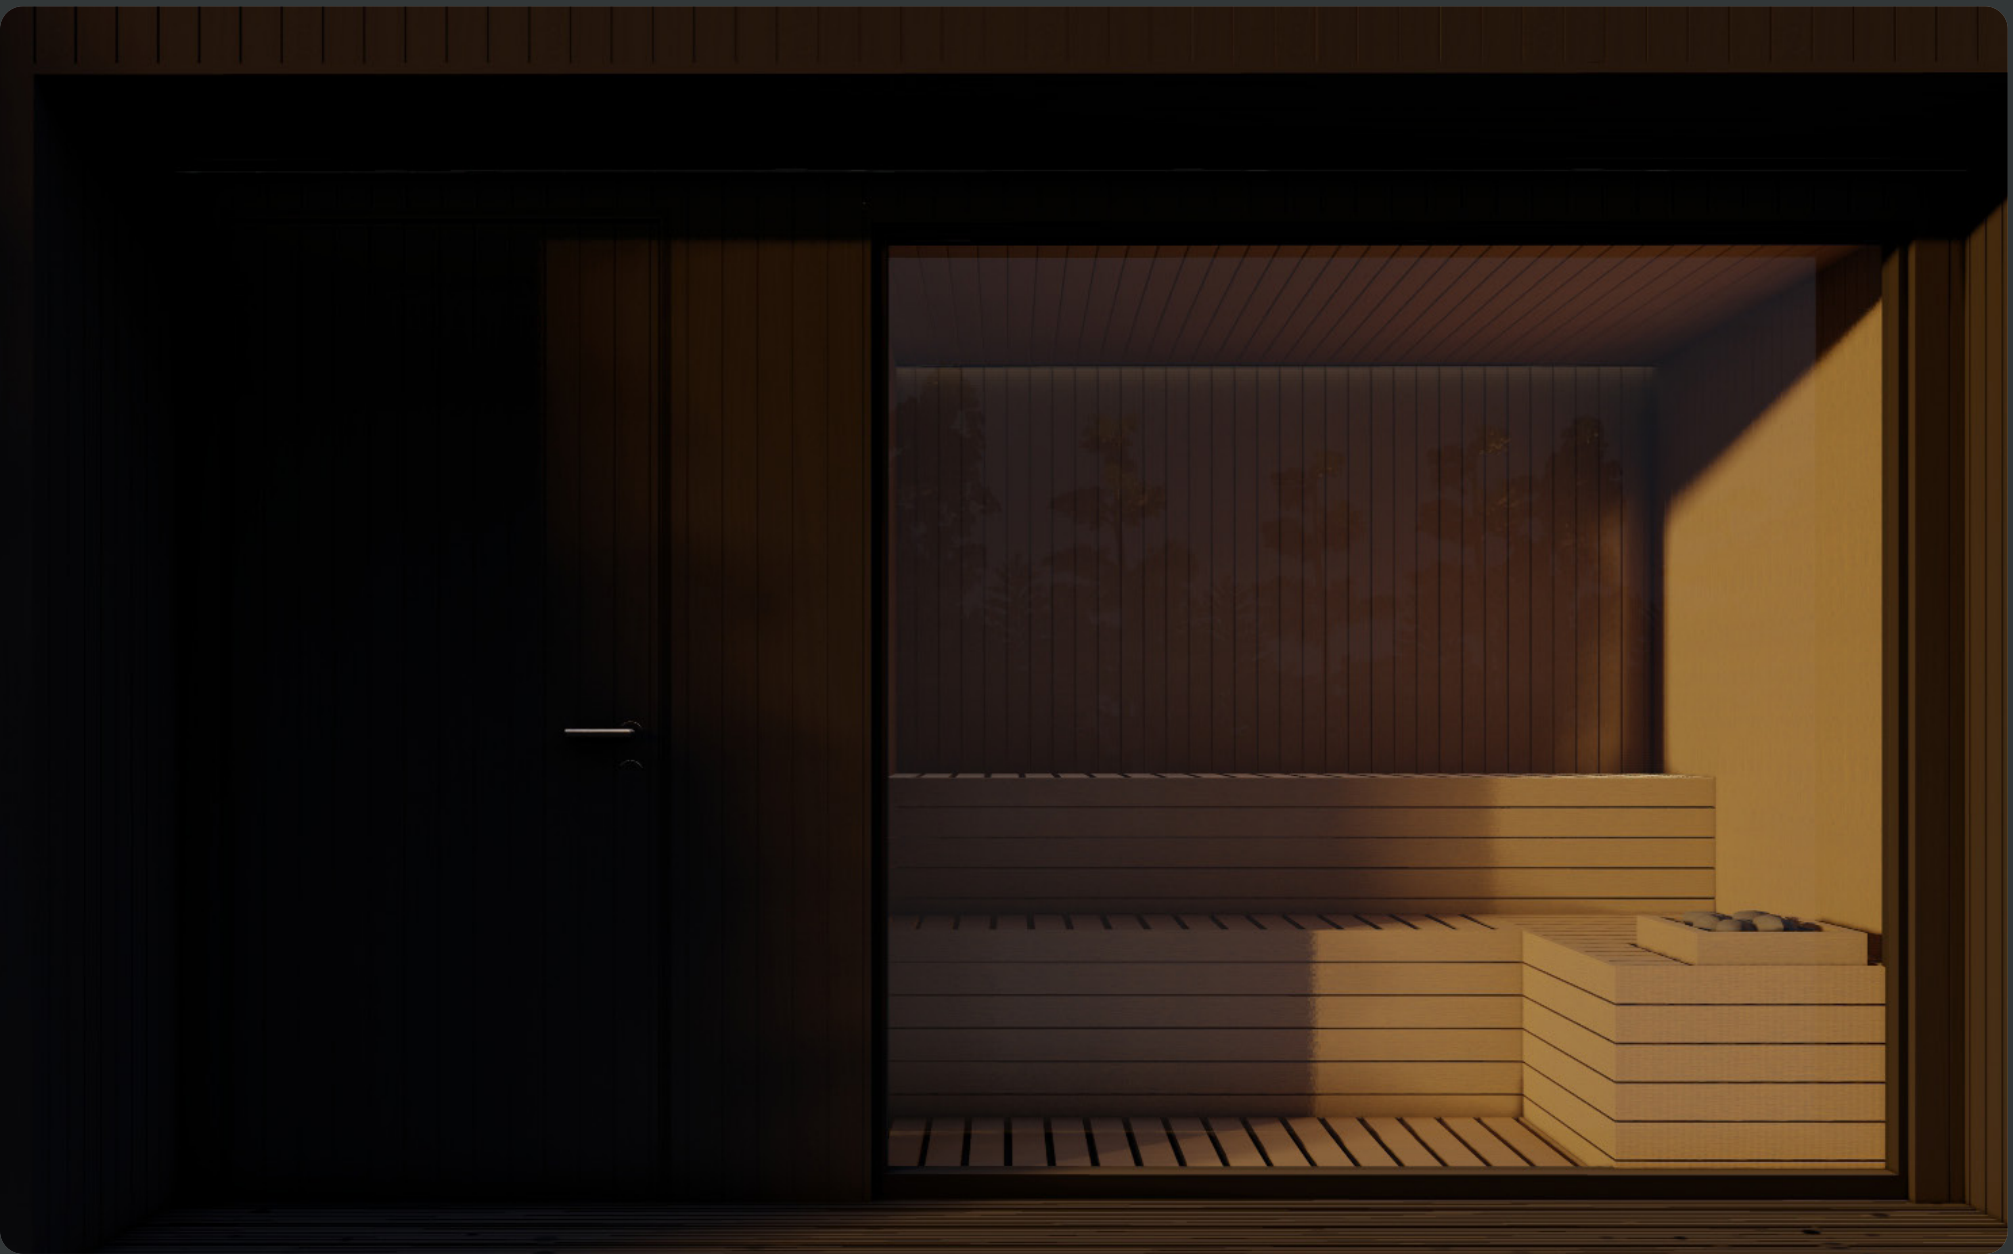

On one side of the Moon Sauna, you'll find our distinctive steel logo, proudly displaying the name "Moon Sauna." This logo adds a touch of refinement and serves as a mark of the exceptional quality and craftsmanship that has gone into creating this extraordinary space.

The Moon Sauna's Interior

Every detail within the Moon Sauna interior has been carefully designed to create a harmonious and serene environment. The combination of the LED lighting, thermo-treated wood interior, and the comforting heat of the Harvia stove comes together to offer you an authentic and unforgettable sauna experience.
